## ITI LIMITED

(A Government of India Undertaking)

**Total Solutions for Global Communications**

### ITI scales new heights of performance, clocks turnover of Rs 1621 Crore

ITI Ltd, India's first PSU and a pioneering venture in the field of telecommunications has reported consolidated turnover of Rs 1621 crore for the financial year 2016-17. It is remarkably the highest turnover in the last six years, which is around 30% increase over last fiscal year. Recently ITI has bagged various orders through competitive bidding and bagged orders from BBNL, BSNL and will be getting orders from RailTel. The company, in the coming future is also expecting orders from mega projects like ASCON from defense and GSM Project of North Eastern region from BSNL. In addition to telecommunication and defense projects, ITI also has plans to explore business opportunities in the IoT, e-Governance, ICT areas and Smart Cities. This remarkable improvement in the turnover is due to Government's support for the new projects and the implementation of new initiatives like 'Digital India', 'Smart Cities' and 'Make in India'.

### Shri S. Gopu, CMD Inaugurates TAG ITI Mobile Wallet Service

Complementing PM's Digital India initiative, ITI Limited has introduced TAG ITI Wallet service for cashless transactions. The service was launched by Shri S. Gopu, CMD in the presence of Shri K Alagesan, Director (Production & Marketing), Shri S V R Murthy, AGM-CF, Shri Raina S K, AFM, Shri Ramesh Gopagani, Finance Executive and Shri Brij Kishor, AFO at ITI Corporate Office on April 6, 2017. The payment application will allow ITI employees to receive digital payments for travel allowance advance, conveyance allowance, imprest amount and other miscellaneous payments. The receipts and refunds are also accepted through this service. It is a revolutionary step towards providing cashless solutions at fingertips.

### ITI Palakkad successfully supplies MLLN equipment

ITI Palakkad plant has set up Managed Leased Line Network (MLLN) system with the state-of-the-art technology to provide managed leased line connectivity for a dedicated telecom link that can connect geographically spread out locations of several businesses all over the globe. The plant has received an order worth Rs 134 crore from BSNL. The scope of the order is to supply, installation & commissioning of MLLN equipment to all Telecom Circles of BSNL across India.

**S**hri J Premchand, AGM-PKD, Unit Head flagged off the supply of first batch of new MLLN materials (NTUs / Modems) to Tamil Nadu Telecom Circle on March 30, 2017. On this occasion, Shri J Premchand, AGM-PKD addressed the senior officers, employees, representatives of employee's union, officers association. He also urged the employees to put all efforts towards completion and supply of this project as per the schedule. Since the project caters to the need of various sectors like banking, financial institutions, stock markets, newspaper industry, broadcasting houses and internet service providers, the project will benefit all sections of people by way of faster internet access, accessibility of bank accounts from anywhere, instant news coverage etc. MLLN is a telecommunication path between two points that is available 24 hours a day for individuals or company. These leased lines can carry data, voice and video information bandwidth of E0 Interface at 64Kbps and n x 64 Kbps up to a maximum of 2 Mbps (E1 Interface). It is capable of supporting two types of leased line circuit's viz., Point-to-Point Circuit and Point to Multi Point Circuit. It is an integrated, fully managed, multi-service digital network platform through which service providers can offer a wide range of services at an optimal cost to business subscribers. Backed by a flexible Network Management System with powerful diagnostics and maintenance tools, the MLLN can be used to provide high-speed leased lines with improved Quality of Service (QoS), high availability and reliability.

### ITI forays into Aadhaar Based Solutions

**I**TI Bangalore plant has set up an Aadhaar Platform Service as per Government of India's plan under Software as a Service (SaaS) model. Aadhaar Platform Service has been certified as an Authentication User Agency (AUA), Authentication Service Agency (ASA), KYC User Agency (KUA) and KYC Service Agency (KSA) of Unique Identification Authority of India (UIDAI). ITI has associated with M/s Shreenath Smart Technologies Pvt. Ltd, Ahmedabad based technology partner to provide Aadhaar Based Solutions for multiple government departments.

**A**adhaar Platform Service has platform components viz. AUA/KUA Server, ASA/KSA Server, Mobile Gateway, Web Gateway, KYC/Auth/BFD Web, Bulk Demographic Authentication, Log Management, Digital Signing & Encryption Module using Hardware Security Module (HSM & File based), XML Validation Module and Dashboard. The solutions extend support for eKYC, biometric authentication and demographic authentication and assist to perform demographic authentication in bulk, which speeds up the validating process of existing client data.

## ITI Palakkad Confers 'Outstanding Safety Performance in Industrial Safety'

ITI Palakkad plant has bagged 'Runner Up' award for "Outstanding Safety Performance in Industrial Safety" for achieving the lowest frequency rate of accidents in the organization, in the category of large size engineering industries instituted by National Safety Council, Kerala Chapter for the year 2015-16.
