ITI signs MoU with C-DAC to collaborate on IoT

Press Trust of India | Bengaluru Last Updated at November 29, 2017 17:30 IST

Public sector company ITI Limited today said it has signed a Memorandum of Understanding with the Centre for Development of Advanced Computing (C-DAC), to collaborate in the area of Internet of Things (IoT).

It also aims to provide end-to-end IoT solutions and services to the Central and state Government establishments, also large enterprises.

C-DAC is the premier R&D organisation of the Ministry of Electronics and Information Technology (MeitY).

The MoU was signed by Y Muralidhar, Unit Head, Bangalore Plant, ITI Limited and Dr. Sarat Chandra Babu, Executive Director, C-DAC in the presence of S Gopu, Chairman and Managing Director, ITI Ltd, here today.

Under the MoU, ITI will manufacture and market various IoT products being developed by CDAC for the specific Smart City components like Smart Environment, Smart agriculture, Smart Post, Smart Water management, Smart Intelligent Traffic Management and Smart Safety and Security, the company said in a release.

The MoU with C-DAC enables ITI establish an IoT platform where it can manufacture and market the IoT applications to various industries with the help of C-DAC's advanced technology for IoT products, Gopu said.

He said "This will add another feat to ITI in IoT category after getting order for manufacturing of feedback devices for toilets under the Swachh Bharath Mission of the Ministry of Urban Development and smart meters from Energy Efficiency Services Limited.

ITI signs MoU with C-DAC to collaborate on Internet of Things

PTI Bengaluru, Nov 29:

Public sector company ITI Limited on Wednesday said it has signed a Memorandum of Understanding with the Centre for Development of Advanced Computing (C-DAC), to collaborate in the area of Internet of Things (IoT).

It also aims to provide end-to-end IoT solutions and services to the Central and State government establishments, also large enterprises.

C-DAC is the premier R&D organisation of the Ministry of Electronics and Information Technology (MeitY).

The MoU was signed by Y Muralidhar, Unit Head, Bangalore Plant, ITI Limited and Dr. Sarat Chandra Babu, Executive Director, C-DAC in the presence of S Gopu, Chairman and Managing Director, ITI Ltd, here today.

Under the MoU, ITI will manufacture and market various IoT products being developed by CDAC for the specific Smart City components like Smart Environment, Smart agriculture, Smart Post, Smart Water management, Smart Intelligent Traffic Management and Smart Safety and Security, the company said in a release.

The MoU with C-DAC enables ITI establish an IoT platform where it can manufacture and market the IoT applications to various industries with the help of C-DAC's advanced technology for IoT products, Gopu said.

He said "This will add another feat to ITI in IoT category after getting order for manufacturing of feedback devices for toilets under the Swachh Bharath Mission of the Ministry of Urban Development and smart meters from Energy Efficiency Services Limited."

ITI signs MoU with CDAC for IOT collaboration

Bengaluru, Nov 29 (UNI)

Down in the dumps and firefighting to stay afloat, India's premier state owned telecom industry, ITI today announced signing up of a Memorandum of Understanding (MoU) with the Centre for Development of Advanced Computing (C-DAC) for collaboration in the fast emerging area of Internet of Things (IOT).

The collaboration would enable ITI to provide end-to-end IoT solutions and services to the Central and State Government establishments and large enterprises, ITI said in a release here.

ITI has already bagged few prestigious IoT based orders from Ministry of Urban Development and Power and plans to achieve an ambitious turnover in the current fiscal in a bid to scale up its revival path.

The MOU was signed by Mr Y Muralidhar, Unit Head, Bangalore Plant, ITI Limited and Dr Sarat Chandra Babu, Executive Director, C-DAC in the presence of Mr S Gopu, Chairman and Managing Director of ITI.

Under the MoU, ITI would manufacture and market various IoT products being developed by C-DAC for the specific Smart City components like Smart Environment, Smart Agriculture, Smart Post, Smart Water management, Smart Intelligent Traffic Management and Smart Safety and Security.
